Pirke de Rabbi Eliezer

(The Chapters of Rabbi Eliezer the Great)

According to the text of the manuscript belonging to Abraham Epstein of Vienna. Translated and annotated with introduction and indices by

GERALD FRIEDLANDER.

Traditionally ascribed to the first century Tanna, Rabbi Eliezer ben Hyrkanos, this remarkable Midrashic work is rich in Aggadic material of great poetic beauty. It also contains elements of Rabbinic mysticism, chapters on Astronomy and the calendar as well as many legends. The English translation, published nearly 50 years ago and now long out-of-print, has been in great demand by scholars, Jewish and Christian alike.

Friedlander's translation is based on unpublished mss., with variant readings given in the footnotes, which is of particular importance in view of the fact that no critical edition has yet been published of the *Pirke De Rabbi Eliezer* in the original.

The translator's 45-page introduction is an exhaustive study of the relationship of P.R.E. to the Talmud, Midrashim, Targumim, Apocryphal Literature and Liturgy, and of its influence on Jewish and Christian Literature.
